

Product overview

An update to the existing Serenity Duo, the Serenity Duo with demister features an improved specification to its predecessor.

The newly integrated demister ensures your mirror stays condensation free when in use. This, alongside dual colour temperature technology allows the Serenity Duo to fit into any bathroom.

The touch switch located on the front face of the mirror enables quick and easy control of the lighting. Simply tap to turn on/off and hold for two seconds to flip the colour temperature from cool to warm white.

Mechanical Specification

Product	Dimensions (mm) (HxWxD)	Weight (Kg)	IP Rating
